Workstations Solution for Body Contouring + Fat Transfer

Combining Vibrasat® Pro, the power-assisted liposuction device with a TLA/FAT infiltration pump, (Liposat® Pro or Liposat® Pro plus), the Anti-Hypothermia-Solution (Thermia Pro) and the silent surgical aspirator (Vacusat® power) builds the complete solution for Body Contouring.

All components are perfectly compatible and harmonised to each other, guaranteeing excellent efficiency, environmentally friendly operation and a maximum in safety for your patient.

All available safety features and accessories are included: Overflow protection, hydrophobic filter, attachment kits, and a 3-Pedal footswitch.

Vibrasat[®] – Cannula Assortment Always the right cannula

Our Cannula Portfolio. Are you looking for fitting cannulas for your surgeries?

We offer the right cannula for every application.

Mercedes 360° | Medium volume | 3 ports

The all-time classic among liposuction cannulas. Developed in cooperation with Dr. Afschin Fatemi, it is particularly suitable for treatments which require a gentle 360° multilayer harvesting.

Triple Mercedes 360° | High volume | 9 ports Equipped with three sets of Mercedes holes this

cannula is designed for large volume extraction. This arrangement allows multi-layered adipose tissue to be extracted quickly, evenly and effectively.

Multi Rapid Extraction 360° | Super high volume | 15 ports This cannula is the right choice for debunking fat-rich tissue areas that need to be treated evenly and efficiently.

Candy Cane 180° | Large volume | 3 ports Its geometrical design makes the Candy Cane Cannula ideal for large volume fat extraction in highly fibrous tissue.

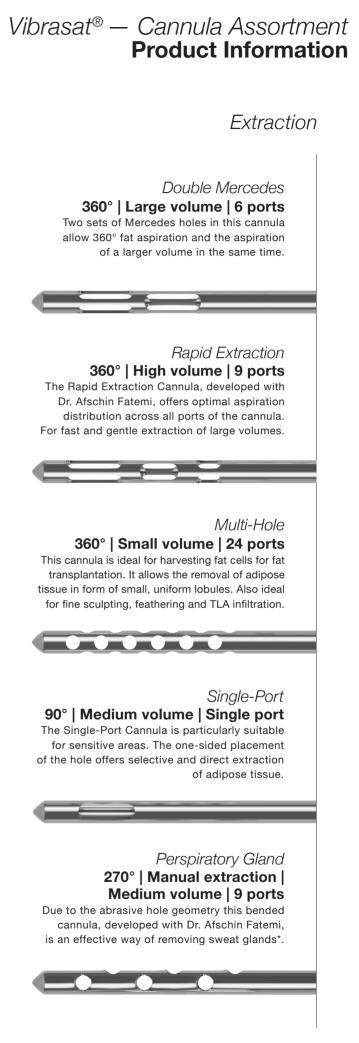

Tri-Port 90° | High volume | 3 ports This cannula features three holes in a row to offer the precision of the Single-Port Cannula in combination with a higher suction volume.

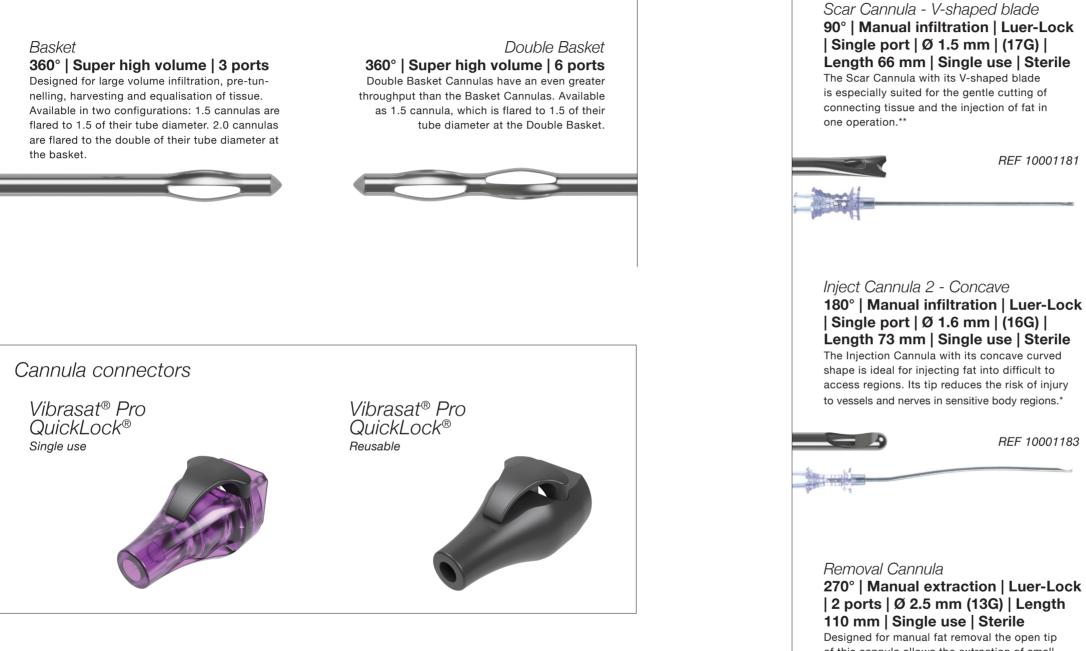

All single use cannulas are bendable!

Please follow the instructions in the manual.

Vibrasat[®] – Cannula Assortment Always the right cannula

Extraction and Infiltration

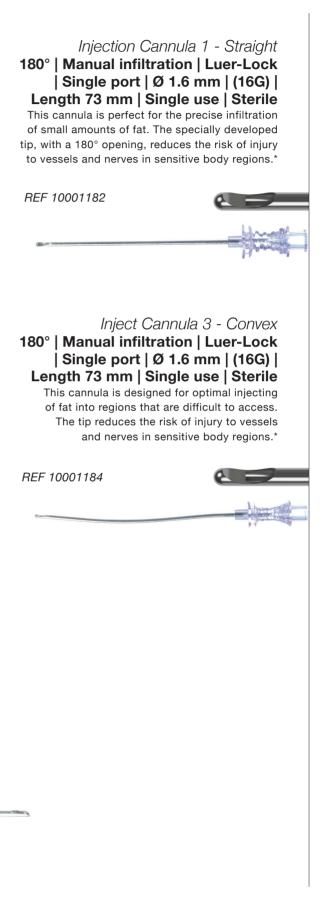

of this cannula allows the extraction of small amounts of fatty tissue. Can be used with syringes with Luer-Lock connector. Suitable for Stem-Cell collection.*

Liposat[®] Product Information

Liposat[®] Pro plus **High performance infiltration pump**

Liposat® Pro plus - Viable fat cells matter. One pump, two soultions. Liposat® Pro plus revolutionary design is made specifically for fat transfer and TLA infiltration. Optimize your workflow, safety, and comfort while reducing procedure time. Its powerful motor has a large rotor for less shear force on fat, which is ideal for users who offer fat transfer as part of their practice. The rotor is easily removed for simple and quick cleaning when necessary. Includes a 1-Pedal footswitch.

Thermia Pro
The Anti-Hypothermia-Solution

Thermia Pro Helps to lower the risk of Hypothermia.

Difficult to handle and space consuming
devices are things of the past. Vacusat [®]
power helps to streamline your workflows!

Technology	Comfort
Heating tray keeps the infiltration fluid at body temperature	Practical mountir or simple setup a
Built-in temperature sensors	Simple to opera
Connections for two heating trays	Auto controlled
Available in two versions, as a tabletop device or for mounting on the Vacusat® power	

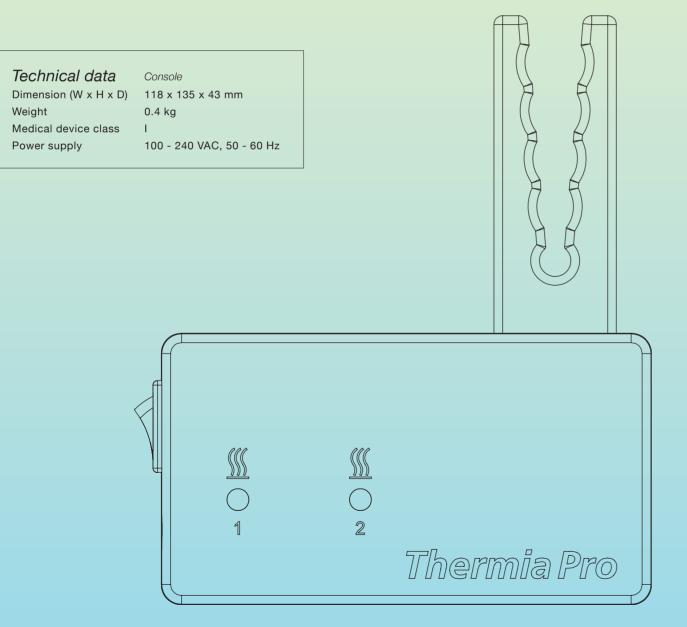

Application Application For use in medical procedures where the heat preservation of infiltrated fluids is necessary Liposuction Lipedema treatment Vein stripping Sweat gland suction Abdominoplasty Arthroscopy Others

Thermia Pro **The Anti-Hypothermia-Solution**

Thermia Pro Console The control unit for well-tempered **TLA** solution

Thermia Pro Console controls the connected Thermia Pro Heating Trays automatically. It is easy to use and simply attachable to Vacusat® power or the Thermia Pro Heating Trays stand-alone. Using Thermia Pro can help to lower the risk of Hypothermia.

REF 00004249

Thermia Pro mounted (Set)

Consists of Thermia Pro Console and Thermia Pro Heating Trays mounted REF 00004253

Thermia Pro Heating Trays stand-alone The independent Anti-Hypothermia-Solution

Thermia Pro Heating Trays stand-alone keep preheated TLA solution at body temperature to help to lower the risk of Hypothermia even during the longest procedures. Thermia Pro Heating Trays stand-alone consists of two Heating Trays with an attached stand which can be placed on a table. In combination with Thermia Pro Console they can ease workflows, as they keep an eye on the infiltration temperature.
